Features :

EUROLITE LED Pixel Ball 360° 1m

Flexible LED pixel string

- 5 pixels, individually controllable
- 1 m long, flexible string
- Ultra-bright TCL LEDs for smooth RGB color mixing in lightweight, white plastic spheres
- 360° beam angle
- Modular concept allows build-up of large curtains for clubs, stages, shops and various other environments
- Serial connection of 6 strings possible (30 pixels)
- Control also possible per MADRIX, DMX and Artnet
