Descrizione :

TWIN-AXIAL MERIDIAN speaker cable  
We use the highly flexible OFC-speaker cable MERIDIAN with very good winding properties, very fine litz (0.15 mm) and high bending cycles. As a rule, we do not offer cables with one open end. You can split a cable with plug and strip the insulation to get two cables, one each for the right and left channel. Larger lengths are available upon request. (Example: Turn a ME25-225-2000 into two Speakon-cables, 10 m long and with one open end each). Equipped with Neutrik NL2FC 2-pin Speakon connectors.
