SOMMER CABLE

SOMMER CABLE DMX cable XLR 5pin 5m bk Neutrik

Cavo dati di alta qualità

Art.n.: 3030747E

GTIN: 4049371113243

Descrizione :

DMX cable by premium manufacturer Sommer Cable
These premade cables are the perfect choice for the transmission of the 110 ohms AES/EBU DMX512 data format.
Important note: the use of a standard microphone cable is not recommended due to data and information losses (caused by the skin effect). In the lighting domain data losses cause a total jam with signal transmissions or the control of scanner systems.
The very affordable price of this cable should make it easy to switch from a standard microphone cable to a proper AES/EBU cable. Our AES/EBU cable guarantees the error-free data transfer even over longer distances of up to 100 metres. We use the BINARY 434 AES/EBU MKII AES/EBU cable with 100 % shielding and the NEUTRIK XLR connectors.

Features :

- AES/EBU- and DMX-conformant, highly flexible
- Very good shielding through the use of copper spiral shielding and a fleece vaporized with aluminum
- Extremely robust with an especially strong jacket
- Only a little more expensive than a standard microphone cable
- For networking of scanners, lighting units, digital mixing boards, etc.
- For indoor and outdoor installation
- For connection of digital audio amplifiers, DAT-recorders, etc.
- Collegamento a innesto NEUTRIK installato

Logistica

EAN / GTIN: 4049371113243
Peso : 0,42 kg
Lunghezza : 0.23 m
Larghezza : 0.23 m
Altezza : 0.03 m
