Descrizione :

As good as it gets!

We are not only talking about the benefits of the LED technology, we can set impressive examples, such as our premium EUROLITE light set, the KLS-200. Because the 432 LEDs, that split on four spots, don't need a huge and heavy housing as is the case with halogen headlights. Try to imagine the different measures of a CRT-TV and a LCD-TV: that's the best comparison. According to this, the whole construction shows up very compact, lightweighted and extremely flexible - whereas the stability is always guaranteed of course. The KLS-200 can easily be put in the also delivered bag, transported and assembled by just one person. A must-have for mobile DJs, who perform their art on weddings or as the case may be, and do set value on a compact, easily transported and highly luminous light set. A foot switch for a direct and individual control is optionally available. An unique and imposing solution, that will definitely be very popular.

Features :

- Complete LED light set with four slimline LED spots
- Crossbar with integrated DMX control unit
- Installation via TV pin for tripods with 28 mm interior diameter
- Ultra-light ideally suited for mobile use
- Comes pre-assembled with practical transport bag
- 108 x 10 mm LED per spot (36 x red, 36 x green, 36 x blue)
- Movable and tiltable spotlights
- DMX-controlled operation or stand-alone operation with processor-controlled color change
- Master/Slave operation
- Sound-control via built-in microphone with sensitivity control
- Convenient control possible via optional 4-pedal foot pedal FP-1 (preset, sound control, freeze, blackout)
- DMX512 control via regular DMX controller (occupies 15 channels)

Logistica

EAN / GTIN: 4026397346077

Peso : 9,60 kg

Lunghezza : 1.27 m

Larghezza : 0.41 m

Altezza : 0.13 m

Merci voluminose

- Optimized for control with the optional control panel DMX LED Operator 4
- Via DMX, each spot can be individually controlled
