Descrizione :

The Laserworld EL-500RGB KeyTEX is a RGB text and pattern projection laser that does not need any software or additional controller for operation. It comes with a special keyboard and an infrared remote control.

With the keyboard it is possible to control the whole show laser light system.

This text laser is equipped with a strong red (650 nm, 180 mW), green (532 nm DPSS, 80 mW) and blue (445 nm, 160 mW) laser source, so the projections are well visible. The scanning systems allows for simple text projections and runs at ca. 15kpps@4°.

The mounting bracket of the EL-500RGB KeyTEX laser can be used to mount the projector at walls, ceilings or at other appropriate objects.

Features :

- Write texts live with the keyboard
- Save texts and recall them later
- Animate the texts: scrolling, flipping, typing of single letters, rotations and many more features available through the keyboard
- Trigger saved texts with infrared remote control
- Play the preset patterns and effects in automatic mode or sound mode - this can be switched with the keyboard or the infrared remote control
- Clock feature: set time and project it on any surface
- The projection (texts, patterns) can be multiplied through a diffraction grating at the laser aperture
- Controllable via DMX
- RGB projections
