Descrizione :

The Video Booster amplifies your signal to keep the quality high even over long distances of up to 600 meters. Of course, it can also be used to amplify a naturally weak signal to reach the desired quality standard. All this comes in an extremely compact design.

Features :

- Equalizes and compensates for signal losses inherent in long cable runs (max. 600 m)
- 75 ohms input and outputs via BNC plugs
- Separate controls for amplification and equalization
- Ultra compact
