### Descrizione :

Originally, the real bougainvillea - also called triple flower - comes from South America. In southern countries, we find the beautiful, brightly colored climbing plant mainly in gardens and as a wall covering.

Get this flowering eye-catcher in the form of a beautiful artificial tree in your premises with Europalms.

With a total height of about 150 cm, the bougainvillea can not be overlooked and is the ideal decorative element for your celebrations. A beautiful contrast to the lush green of the tapered foliage is the intense color of the upper leaves, in the middle of which sit the actual flowers. The high trunk is formed by 3 natural trunks on which lianas climb.

Unlike its natural model, the artificial bougainvillea has no thorns.

Included in the delivery is a basic garden pot, which gives the plant a stable stand when placed in a planter.
