Set LED Strip 5in1 WiFi Controller + Remote Control Zone

Art. No.: 20000967
GTIN: 4026397699814

Features:

EUROLITE LED Strip 5in1 WiFi Controller

Smart 5-channel Wi-Fi controller for RGB/W+CCT LEDs with app, Alexa & Google control

- LED controller with Wi-Fi technology for a smart home
- 5-in-1 function to control multi-colored (CCT, RGB, RGBW, RGB+CCT) and single-colored LED strips
- Works without a bridge or hub
- Control multiple controllers at the same time
- Excellent signal transmission with 2.4 GHz - no perceptible difference to a wired system
- Innovative wireless technology allows multiple controllers to be controlled synchronously and asynchronously with just one remote control
- Synchronous color sequences even over several hours with multiple controllers and different LED types
- PWM outputs make it ideal for use with modern LED strips
