GTIN: 4026397329711

The article is no longer in our assortment.

Description:

Simply irresistible!

It's often the small or simple things that make the difference and have a great impact. And it doesn't matter whether for human relations or in the technical sector. Our color tubes are giving impressive examples for this purpose. Simply stuck over a conventional neon tube - in this case for 28W T5 model with 1149 mm - and the color as well as the mood changes gigantically. Therefore rooms can be adjusted to color features without considerable expenditure, so you are prepared at all times. Aside from that, the purchase of colored neon tubes - which would clearly be more expensive - drops as well. Our tubes are available in different colors and also in different sizes.

Features:

- In various trendy colors: red, green, yellow, turquoise, pink, violet, orange and blue
- Neon tubes a bit different
- Length 113.9 cm
- Inner diameter 17.5 mm

Technical specifications:
