

OMNITRONIC AS-02 Microphone Absorber System

Microphone absorber system for studio and live applications

Art. No.: 6000628E

GTIN: 4026397514148

Description:

Microphone absorber system for studio and live applications

This microphone absorber system from OMNITRONIC is ideally suited for your studio and live applications.

The chrome-plated steel frame is equipped with a high-density acoustic foam and can reduce disturbing noises such as reflections and echoes in an optimal way. In addition, it minimizes background noise during vocal and instrumental recordings.

The stand screw clamp is suitable for all common microphone stands with standard inside threads. It is mounted behind the microphone with adjustable distance.

Features:

- Portable absorber/diffusor for studio and live applications
- Reduces unwanted room reflections, echoes and ambient noise during vocal and instrument recordings to a minimum
- Chromed steel frame with high-density acoustic foam
- Stand screw clamp for all conventional stands with standard 16 mm inside thread (5/8")
- Mounts behind microphones, distance adjustable
