

EUROPALMS Halloween Grim Reaper, 165cm

Faceless grim reaper with LED and sound effect

Art. No.: 83316097

GTIN: 4026397634150

Description:

Give your Halloween decorations a dark and sinister atmosphere with the shadow ghost from Europalms.

The decorative figure depicts a faceless ghost wrapped in a gloomy, floor-length robe. A shabby, frayed cloak falls over his head and robe, further enhancing his eerie appearance. Particularly fascinating, however, is the kaleidoscopic effect that appears in place of a face when the animation is activated. This mystical effect draws everyone's attention and casts the figure in an ominous light, while an eerie ghost train soundtrack perfectly complements the spooky atmosphere.

The lantern included in the scope of delivery offers an additional interaction option. This can be held by "Grim Reaper" or simply placed next to the figure. The lantern can either be illuminated briefly using a push-button or switched to continuous operation using a switch on the battery compartment.

The animation of the figure itself is activated via an integrated microphone or wired manual control.
