Description:

Eerie, spooky and impressive in size - the Europalms horror ghost is the perfect blend of suspense and terror.

At an imposing 234 cm, this ghost towers well above its surroundings and is ready to terrify anyone who gets too close. Its mouth looks like an oversized maw just waiting to devour everything. His ghostly eyes, red with rage, also seem to want to pierce the darkness and fix everyone in his field of vision. The overall picture of horror is reinforced by the wide-spread arms with clawed hands that could strike at any moment. The entire body is suffused with a mysterious red light, which is generated by a rotating LED wheel.

Turn your Halloween night into an unforgettable experience with the horror ghost from Europalms! The decoration can be set up in a protected outdoor area thanks to the IP44 protection class.

And it's that simple:

To operate, the giant ghost is permanently connected to the power supply via a two-meter-long supply cable. It then inflates to its full size on its own. Additional ground spikes and ropes are included to ensure a stable stand.

After the season, the air is simply released and the figure can be folded up again to save space and await its next appearance.
