

EUROLITE ACL Blinder DMX black

High-quality stage version with a very high luminous efficiency

Réf. : 42103465

GTIN: 4026397266511

L'article n'est plus disponible.

Description:

A facelift for a well-tried object. Normally, the lamps of audience blinders are adjusted in a parallel manner and the rays spread enormously. Now, with the ACL-Blinder, the lamps are installed like a circle, so that the beams stay close to one another and form a real big spot. This first-quality stage version has a very high luminous efficiency and is a worthy partner on tour.

Caractéristiques:

- New design featuring circularly adjustable lamp rows
- For 8 PAR-36 (28 V/250 W) lamps
- Extreme and lightning-fast light displays
- A rugged housing makes it suitable for road use
- 1 controllable DMX channel
- Max. output and selectable
- Manual dimming possible
- LED-display for adjusting the DMX-starting address
- Ceiling or trussing installation possible

Logistique
