

LH-100 Audio Oscillator

Dual oscillator (VCO)

Art.n.: 10355100
GTIN: 4026397301915

LH-100 Audio Oscillator

Dual oscillator (VCO)

Art.n.: 10355100
GTIN: 4026397301915

Features :

- The LH-100 is voltage controlled (VCO) and produces sine and square wave audio signals to test audio equipment such as speaker systems
- 2 separate outputs with variable amplitudes
- Variable frequency from 20 Hz to 20 kHz (deactivated at VCO input signal)
- Additional audio input for an external signal source
- -10 dB pad for output attenuation
- Feed-through output for supplying a further LH-100 with power
- All audio connections via 6.3 mm jacks (1/4")
- Operation via supplied power unit
