Descrizione :

Hot pursuit!

There is no escape, no break out. Its hopeless. Because our EUROLITE VFL-1200 Follow Spot is a master of its field and surely won't lose sight or focus of the desired object. Through its high performance, it reaches stages from a 30 to 40 meter distance ideally and is exceptionally handy due to its 5 affixed handles. In addition it is equipped with two rotatable lenses - for sharpness and zoom - and can, compared to many other colleagues, show off an already built-in ballast and delights with its good processing, its solid casing and its high life expectancy even in mobile mode. A top quality and loyal companion, which has a close look at actors or musicians, putting them at the center of attention.

Features :

- Basic equipment: built-in fan, iris, blackout and on/off-switch, splinter protection, two easily adjustable lenses.
- 5 handles at the right places
- Gobo holder for 66 mm gobos for projection of motives
- High-performance follower with stable housing and high lifetime in mobile operation
- For MSR 1200 G-22 lamp
- Suitable color changer 4-way for VFL-575/1200W optional
