

EUROPALMS Cherry tree with 3 trunks, artificial plant, rose, 160cm

Spring awakening in full bloom

Art.n.: 82507834

GTIN: 4026397735765

Descrizione :

In many cultures, the cherry tree symbolizes beauty, transience and new beginnings. In its natural environment, it impresses every spring with a sea of delicate blossoms. In Japan in particular, the cherry blossom, known as SAKURA, is celebrated and marks the start of a new season.

The artificial cherry tree from Europalms brings the magic of the blossoming season to any room. Three artificial stems have been arranged in a decorative plant pot, two of which continue to branch upwards. Its lush, pink flowers are fully bloomed and spread densely over the branches, making the tree a real eye-catcher.

Whether as a stylish decoration in the living area, as an elegant eye-catcher in business premises or in catering establishments - it blends effortlessly into a wide variety of furnishing concepts and creates a spring-like ambience. The beauty of the cherry blossom can be enjoyed without any seasonal restrictions or care requirements.

Thanks to a clever solution that ensures space-saving packaging, only 3 branches need to be inserted into marked shafts when setting up the artificial plant.

Logistica

EAN / GTIN: 4026397735765

Peso : 4,20 kg

Lunghezza : 1.15 m
