### Descrizione :

Peonies (lat. Paeonia), which originated in East Asia, have long since established a permanent place in our home gardens. Depending on the variety, they bloom from late spring to early summer. Capture the fascinating elegance of a paeonia and enrich your home or office with the authentic charm of this artificial plant from Europalms.

The stem of the artificial peony features five lush flowers that shine in all their glory. They have been carefully modeled to convey the grace and abundance of real peony flowers. This is particularly evident in the different shades of color of their delicate petals. In addition, three small flower buds peek out between the vibrant green of the leaves.

The artificial plant has a total height of approx. 90 cm and is supplied in a simple gardener's pot, which gives the plant a stable stand when placed in a planter.
